27<sup>th</sup> March 2015

Dear occupier,

I have been asked by the owner of Dickon road/Queen street to confirm if any issues have been raised with regard to complaints at Amirs, Los Gringos and Pizza Luigi.

As you aware we manage the eight flats above these units and we have not received any complaints of disturbance or anti social behaviour from these establishments and no tenant has left for such reasons.

We are also situated directly opposite yourselves and we have not seen any evidence of damage or vandalism over the many years we have been here.

Yours faithfully,

MK Property Management

## Duty of Care Waste Transfer Note

(in accordance with Section 34 of the Environmental Protection Act 1990)\*

This is a legal document and must be kept for your own records for 2 years.

CUSTOMER: COMPLETE SECTIONS 1 TO 4 BELOW (See notes overleaf):

## 1. Producer/Current Holder of Waste

Date: 08/12/14

8.2 Signed on behalf of SITA UK

Name: Michael Brown

Position: Regional Manager

Signature: Michael Brown

Date: 30/03/14

## Notes on completing the Waste transfer Note

### Responsibility of the Waste Producer

- The Waste Transfer Note (WTN) is required by law under section 34 of the Environmental Protection Act 1990 (as amended).
- The WTN must be kept for 2 years and failure to do so constitutes a criminal offence.
- Failure to return a valid copy to Blackpool Council may invalidate your original document and leave you open to prosecution (Blackpool Council reserves the right to revoke this document should any breach of contract terms and conditions occur).
- The WTN does not constitute a contract between Blackpool Council (the Council) and yourself but must be properly completed before the Council is legally able to collect your waste. The contract of Service is a separate document.
- **The Council is unable to collect any waste classified as hazardous or any mixed waste containing hazardous or dangerous waste.**
- **Producer/Current Holder of Waste**  
Most establishments where waste is collected will be classified as the 'producer'. An 'importer' will be someone who has imported something from outside the UK only to find it is not suitable and has to be discarded. A 'carrier' is someone who transports waste and is passing it on to the Council having collected it from a 'producer'. A 'Broker' is someone authorised to deal with the waste of a third party.
- Please complete the details as requested.  
Indicate the address where the collection is to be made, and if the business and collection addresses are the same.
- A WTN must be completed for each load that leaves your site. For repetitive transfers an 'annual ticket' can be issued, where the parties involved in the transfer are the same and the description of the waste being transferred remains the same. If the waste you produce is unlikely to change and you wish to opt for an annual WTN then please enter the 'between dates'. One-off collections of waste which are outside the annual WTN description can be accommodated by completing a one-off WTN.
- Please sign and date.
- **Type of Business**  
Please tick one box that represents the nature of the activity generating the waste.
- **Type of Container(s) and Quantity**  
Indicate the type of container to be collected with a tick. Several containers of the same type or a different type can be collected at the same time. Please tick each container type to be collected. Please indicate the number of containers to be collected. If the WTN covers a period of time up to 12 months then the total number of containers to be collected will have to be entered. This information can be obtained from your Contract of Service document, (not applicable for orange sack customers). The Council will not collect loose (uncontained) waste and you may be committing an offence under the Clean Neighbourhoods and Environment Act 2005.
- **Type/Description of Waste Collected**  
Waste has to be classified according to the European Waste Catalogue (EWC) using a six-digit code. As the current holder of the waste, you have a legal duty to correctly describe the waste being transferred. This is to enable the recipient or anyone else coming in to contact with the waste it to handle it safely. **It is no longer acceptable to use non-specific terms such as 'general waste' or 'insert waste' even though you may have done so in the past.** The Council is unable to collect waste described in this way. The Council is also unable to accept waste described with a '99' as the last two digits of the EWC code. A valid code and associated description must be used. The WTN form contains certain commonly used codes designed to save you time. However, the presence of these codes does not excuse you from checking your waste and the EWC to ensure the appropriate code(s) have been used to describe your waste. As a general rule, the Council will only accept EWC Chapter 20 waste. Contact the Council if in doubt. Please note there are also restrictions on former foodstuffs (from January 2006) and animal by-products covered under the Animal By-Products Regulations (SI 2003 No. 1482). These materials cannot be collected by the Council.

### Service Requirements

- All refuse must be properly contained and stored on your property until the day of collection.
- All bags must be tied.
- Container lids must be closed.
- No Side Waste will be taken.
- Cardboard must be flat packed and tied in bundles.
- Do not obstruct the highway with your refuse.
- Food waste from cafe/restaurants must be placed in suitable bags or rigid containers to prevent liquids leaking.
- Glass should be in a box or bin and should be clearly labelled - **BROKEN GLASS SHOULD NEVER BE PLACED IN PLASTIC BAGS.**
- Under no circumstances should the following materials be disposed of using your normal collection:  
OIL, ASBESTOS, ACID, CHEMICALS, OR SHARP OBJECTS.

### Waste Providers Responsibility

- To ensure reasonable steps are taken to re-use, recycle and all other measures of recovery to prevent generation of waste

PLEASE SIGN BELOW →

We customers of pizza luigi's are happy with the customer service & food that we receive, also we believe that the shop is clean with no trouble in the shop and the management is good.
