### Commentary on the key issues:

#### Directorate Summary – basis

- The Revenue summary (above) lists the latest outturn projection for each individual service within the Children’s Services Directorate against their respective, currently approved, revenue budget. Forecast outturns are based upon actual financial performance for the first 5 months of 2016/17 together with predictions of performance, anticipated pressures and efficiencies in the remainder of the financial year, all of which have been agreed with each head of service.

#### Dedicated Schools Grant Funded Services

- The Dedicated Schools Grant (DSG) is the funding stream that supports the Schools Budget, which includes amounts that are devolved through the Individual School Budget (ISB), together with centrally-retained pupil-related services as listed in the revenue summary. Any under or overspends against services funded by the DSG will be carried forward to 2017/18 and, in the case of overspends, become the first call on the grant in that year.

#### Early Help for Children and Families

- The Early Help division is forecasting a £184k underspend due to staff vacancies and a saving on the Domestic Abuse contract.

## Children's Social Care

- Several commissioning reviews have taken place during the first half of the financial year and progress has been made against the challenging £1.222m 2016/17 PLB savings target that was applied to the Children's Social Care division. There is a forecast shortfall of £675k due to the ongoing implementation of the review recommendations.
- Additional in-year service pressures, as described below, relating to placements, legal costs and other minor overspends amount to £2.682m giving a total forecast overspend for the division of £3.357m.
- The number of Looked After Children (LAC) in Blackpool has increased by around 10% in the last year. This reflects national trends, with the Children and Family Court Advisory and Support Service (Cafcass) reporting a 16% increase in care applications between July 2015 and July 2016. At a local level, significant and unusual anti-social behaviour patterns have emerged in the town in recent months which has ultimately led to the commencement of several new residential placements with extensive therapeutic support being required in many cases.
- The Deputy Director of Children's Services carried out an audit of all new admissions into care between April and June 2016 which confirmed that all the children were brought into the system appropriately. Only one of these new placements was due to a family moving into the Blackpool area.
- Average placement costs have continued to increase, and this is partly due to a shortage of quality providers which is being seen nationally as highlighted in Martin Narey's recent government-commissioned report, Residential Care in England. This creates significant commissioning challenges in terms of negotiating weekly placement rates that offer value for money.
- A breakdown of the budgeted, current and projected placements is shown in the table below:

IFA budgeted numbers (fte)		65.0
IFA current (headcount)		78.0
IFA projected numbers (fte)		73.6
Increased numbers pressure	£	452,165
Increased placement rate pressure	£	27,365
Independent Fostering Agency Over Spend	£	479,530
Resi budgeted numbers (fte)		20.0
Resi current numbers (headcount)		34.0
Resi projected numbers (fte)		29.2
Increased numbers pressure	£	1,554,945
Increased placement rate pressure	£	360,250
Residential Over Spend	£	1,915,195
Total Placement Over Spend	£	<u>2,394,725</u>

- In addition to placement pressures, there is a forecast overspend of £256k on the legal and court fees budget. Despite the fact that Blackpool invests more in advocacy services, and have consequently seen less of a spike in care proceedings than our neighbouring authorities, such cases are continuing to rise, increasing from 107 in 2015/16 to a projected figure of 137 for 2016/17.
- A number of solutions to try and mitigate the above pressures are being explored and implemented. Expressions of interest for three innovation bids were submitted to the Department for Education (DfE) in July, which propose new ways of working in partnership with neighbouring authorities as well as local providers and partners to support children with complex and therapeutic needs. Work is also taking place in-house to redesign and strengthen services, including the creation of the Vulnerable Adolescent Hub which will offer a single point of contact for young people, and the conversion of one of our children's homes into an adolescent support unit, or 'crash-pad', which will both support young people on the edge of care and provide short-term crisis care. In addition, now that the division's internal reviews are nearing completion, there will be a refocus of the children's commissioning team on the local provider market, in an attempt to drive down placement costs.

### **Education Services Grant**

- From April 2013, the education functions provided by local authorities have been funded from the Education Services Grant (ESG). The Council receives £77 per pupil in relation to the pupils in schools maintained by the authority plus £15 for each pupil in all schools and academies in respect of responsibilities retained for every pupil within our boundary. A shortfall in grant of £83k is included in the forecast overspend, relating to the anticipated loss of funding due to in-year academy conversions.

### **Summary of the Children's Services financial position**

As at the end of August 2016 the Children's Services Directorate is forecasting an overspend of £3.305m for the financial year to March 2017.

**Budget Holder – Mrs D Curtis, Director of People (Statutory Director of Children's Services)**

Note:

The variance between the current total number of Looked After Children (486) and the total internal fostering and external placement numbers (359) is children with care orders, adoption placements etc. They are still classed as LAC but do not incur any commissioned costs.
