4.6 **National policy considerations**

Section 11 reviews is relevant in particular:

11.20 – In deciding which of these powers to invoke, it is expected that licensing authorities should so far as possible seek to establish the cause or causes of the concerns that the representations identify. The remedial action should generally be directed at these causes and should always be no more than an appropriate and proportionate response.

If a suspension or revocation is being considered 11.23 should be taken into account “it will always be important that any detrimental financial impact that may result from a licensing authority’s decision is appropriate and proportionate to the promotion of the licensing objectives. But where premises are found to be trading irresponsibly, the licensing authority should not hesitate, where appropriate to do so, to take tough action to tackle the problems at the premises and, where other measures are deemed insufficient, to revoke the licence.”

The panel have the following powers:

1. Take no action
2. Modify the conditions of the licence (by adding removing or varying conditions)
