#### **4.0 Council Priority:**

4.1 The relevant Council Priorities are:

- “The economy: Maximising growth and opportunity across Blackpool”
- “Communities: Creating stronger communities and increasing resilience”

#### **5.0 Background Information**

5.1 The world is changing quickly and digital technologies are shaping it more than ever before. The Council’s ambition to maximise the economy and build a more resilient community cannot be realised without the support of digital technologies. Blackpool’s success as a resort and destination will increasingly depend on enriching the visitor experience with enabling digital technologies if it to compete with other destinations. The younger generation now expect digital as a default. To stay relevant and grow relevance with this generation Blackpool cannot afford to ignore this trend.

5.2 The strategy breaks down into four themes, which set the direction of travel and work plan.

- Digital Customer
- Digital Workforce
- Digital Place
- Digital Collaboration

It is not the intention for the strategy to sit in isolation from other Council plans but to seek to influence them and encourage innovation within them.

5.3 The Strategy outlines a number of risks, which it seeks to address. Of particular relevance are the increasing cyber risk and the new General Data Protection Regulation due to come into force in May 2018.
