Commentary on the key issues:

Directorate Summary – basis

The Revenue summary (above) lists the latest outturn projection for each individual service within the Children’s Services Directorate against their respective, currently approved, revenue budget. Forecast outturns are based upon actual financial performance for the first 5 months of 2018/19 together with predictions of performance, anticipated pressures and efficiencies in the remainder of the financial year, all of which have been agreed with each head of service.

Children’s Social Care

Children’s Social Care is forecasting an overspend of £3,479k due to ongoing demand pressures relating to Looked After Children (LAC) numbers.

When budgets were set, LAC numbers were around 530. Early in the financial year a review of each individual LAC placement was carried out and a plan put in place for every child, which included stepping young people down into lower cost placements, and discharging them from care to be resettled at home with their families, wherever this was appropriate and safe. These plans were reflected in detailed budget forecasts which resulted in an anticipated overspend at the beginning of the financial year of £2.2m.

During the first four months of the financial year, LAC numbers increased. Although there has been a slight decrease during August, they remain high at 561. This overall increase has undoubtedly placed the budget under further pressure, but the breakdown of a number of existing placements has also contributed significantly to the higher forecast overspend. Additional costs for the financial year attributable to children with complex needs being moved into more expensive placement categories, requiring additional support or being unable to step down as early as planned, amount to more than £1.1m.

Work is ongoing to reduce both LAC numbers and placement costs. All new admissions into care require Senior Service Manager approval. There is now a Commissioning role in place, the purpose of which is to scrutinise and challenge the cost of the most expensive external placements, and work is underway to review the sufficiency of placement provision across the town, which is monitored through a monthly meeting chaired by the Director of Children's Services. Since the start of the financial year, savings of almost £1m have been achieved as a result of children being successfully discharged from care, or stepped down into a less costly placement.

For the first time this month, the savings achieved have exceeded the increase in costs, resulting in an improvement in the forecast out-turn position.

The current overspend forecast does not anticipate any further increase in LAC numbers. Although some new admissions into care are inevitable, the assumption is that the management measures being put in place will enable the service to maintain numbers at or below current levels for the remainder of the financial year.

Dedicated Schools Grant Funded Services

The Dedicated Schools Grant (DSG) is the funding stream that supports the Schools Budget, which includes amounts that are devolved through the Individual School Budget (ISB), together with centrally-retained pupil-related services as listed in the revenue summary. Any under or overspends against services funded by the DSG will be carried forward to 2019/20 and, in the case of overspends, become the first call on the grant in that year.

Education

The overspend in the Education division relates primarily to the Special Educational Needs (SEN) Transport service and is partly due to demand pressures and partly due to the savings target of £320k that was applied in 2017/18 but not achieved.

Summary of the Children's Services financial position

As at the end of August 2018 the Children's Services Directorate is forecasting an overspend of £4.246m for the financial year to March 2019.

Note:
The variance between the current total number of Looked After Children (561) and the total internal fostering and external placement numbers (470) is children with care orders, adoption placements etc. They are still classed as LAC but do not incur any commissioned costs.
