

Petition for the Installation of Alley Gates

The residents listed below have all signed to support the installation of alley gates between First Avenue and Second Avenue, South Shore, Blackpool.

Our argument for the installation of alley gates is to try and prevent the anti-social behaviour and crime that is being committed down the alley and make the area a safer and more secure place to live. This anti-social behaviour and crime over the last few years has included:

- Theft from houses and garages.
- Arson to garages.
- Fly tipping both large incidents involving the council to clean us and numerous smaller incidents.
- Serious stabbing incident in the alleyway.
- Suspicion of drug dealing day and night.
- Vandalism to properties along the alley.
- People hiding in the recesses down the alleyway in the day and night.
