**Re: Parking concerns – Osborne Road and Withnell Road between Simpson Street and Station Terrace.**

Following the recent consultation Traffic Management undertook about parking along Osborne Road and Withnell Road. We have now collated and examined all the responses put forward. Out of all the properties consulted 51 properties took the opportunity to respond, the responses have been summarised below:

**Permit Parking**

Out of the 51 responses, 82% responded in favour of permit parking; the favourable response was evenly spread over the area.

With the above in mind we will put forward a formal proposal to introduce a Permit Parking Zone on Osborne Road and Withnell Road between Simpson Street and Station Terrace. Please note the design, legal consultation and construction process could take up to 2 months from today.

If you would like to discuss the above in more detail please feel free to contact me on 01253 476287.

Yours sincerely,

**Traffic Management**
