Licensing Service

Blackpool Council

Dear Sir,

I write regarding the Premier Store Ashfield Road (Mrs Michelle Nelson), and the recent application made for a license at the above property. As a resident of Ashfield Road for 15 years, I have extreme misgivings about allowing further licensed premises in our area.

Over the last 5 years the immediate locale of the shops has suffered at the hands of anti social behaviour. The shop applying for a license has been subjected to continued harassment, and has numerous instances of police being called. This, in my opinion will only increase given a license.

As a predominantly residential area, I would also question, the sense of the hours being applied for. Surely, if a further alcohol outlet was available, nuisance and public safety would be compromised by the types of people it would attract.

I would be grateful if my objections were taken into consideration, and would also wish to attend any meeting in person, if it were possible to reiterate my disapproval of the implications this would have on our area.

Yours sincerely
