

Dickson Road

The 2 FOBT's located on the lower floor near the entrance have now been relocated to the upper floor.

The counter till terminals have both been raised and till draws relocated for a higher seating position allowing maximum visibility of all 4 machines and the entrance route to the shop.

The LCD monitor to located on the counter top has now been removed.

Training

Since the incident occurred on the 24th October we have not entered into a Primary Authority partnership in relation to Age Verification with Reading Borough Council co-ordinated by the ABB.

All our current full time / part time staff have now taken part in training that has been approved by Reading Council. This includes a test that requires a 90% pass mark. Records are available if you so request.

We have also created our own training presentation to support this.
