3/4/16

To Whom it may Concern

We are writing this letter to lodge a Complaint regarding the application for a live music licence for 7 days a week and the times to be played (re 270-274 Queens Promenade Stone Grill)

The area where the new venue is situated is more residential with the only business that is operational on that block is a care home for the elderly

We have a family and are very concerned regarding the level of noise and the time of the licence that they are applying for and the impact and distress this will have on us and our family on a daily basis.

So we are requesting to yourselves that the application that has been submitted should be reviewed regarding the overall application, ie amount of days and times, they would like the licence to cover.

Yours

M Heslop & H Warren
