## **Commentary on the key issues:**

In order to provide a complete picture of the Council's financial performance the above table provides a snapshot of the General Fund balance sheet as at the end of month 4. The key areas of focus are any significant movements in debtors, Cash and cash equivalents, bank overdraft and creditors as these impact upon the Council's performance in the critical areas of debt recovery, treasury management and Public Sector Payments Policy.

The balance sheet has been prepared under International Financial Reporting Standards (IFRSs). Temporary investments are included within cash and cash equivalents along with bank balance and cash in hand. Usable reserves include unallocated General Fund reserves and earmarked revenue reserves. Unusable reserves are those that the Council is not able to use to provide services. This category includes reserves that hold unrealised gains and losses (for example the Revaluation Reserve), where amounts would only become available to provide services if the assets are sold.

Over the 4-month period there has been an increase in Property, Plant and Equipment of £8m and a decrease in short term borrowing of £17m, which in the main reflects the early receipt of capital grants.
