Cash - short-term net investments/(borrowing) balances:

Commentary on Cash Movements during the year:

The summary on the previous page provides a comparison of the actual cash receipts and payments compared to the forecasted cash receipts and payments.

During the first 5 months of the year the Council's net cashflow has resulted in fluctuations in short-term net investment/borrowing balances. However, overall temporary borrowing has decreased since 31st March 2018 due to the receipt of grant income from central government in advance of expenditure. The Council is predominantly using temporary borrowing to finance Prudentially-funded capital expenditure, though is switching to fixed Public Works Loan Board loans as and when opportune to do so (including £8m on loans made to Blackpool Transport Services in order to refresh the bus fleet) and exploring the soon-to-launch first bond issue of the Municipal Bonds Agency. The take-up of loans from the Business Loans Fund is expected to continue steadily during 2018/19.

The chart of actual and forecast month-end balances shows temporary investment and borrowing levels throughout the year. The forecast shows the level of borrowing that may be required to cover planned capital expenditure up to 31st March 2019.
