

BLACKPOOL COUNCIL
REPORT
of the
DIRECTOR OF RESOURCES
to the
EXECUTIVE
on
10 June 2019

TREASURY MANAGEMENT OUTTURN REPORT FOR THE YEAR
ENDED 31 MARCH 2019

1. INTRODUCTION

One of the requirements of CIPFA's (Chartered Institute of Public Finance & Accountancy) 2017 Prudential Code and Treasury Management Codes of Practice is that periodic reports on the Council's treasury management activities are submitted to the Executive. This annual report on performance is for the 2018/19 financial year.

The Council manages its cashflow and long-term financing of capital investments in accordance with its annual Treasury Management Strategy. The 2018/19 Strategy was approved by the Council on 28 February 2018 and its objectives are as follows:

- to set the framework for managing the Council's investments and cashflows and controlling its banking, money market and capital market transactions
- to plan and secure appropriate borrowing in order to finance the Capital Programme for 2018/19 and the next two years, at the lowest cost to the Council
- to achieve the best rates of return from the investment of temporary surplus cash balances commensurate with risk, subject to the overriding principle of maintaining an acceptable level of security
- to control effectively the risks associated with these transactions
- to comply with appropriate codes and regulations including the International Financial Reporting Standards as they apply to Treasury Management.

In delivering the above objectives the Council will:

- decide its own borrowing limits taking into account its financial situation, long-term plans and in particular what it thinks is affordable now and sustainable in the future
- monitor these limits using performance measures called Prudential indicators. All local authorities must use the same system of performance measurement and risk control. The borrowing limits have been set in accordance with the Council's Medium-term Financial Plan.

2. BORROWING TRANSACTIONS 2018/19

2.1 Loans Raised

The Council's total borrowing powers at 1 April 2018 (the Authorised Limit) stood at £433m. New long-term borrowing of £8m was taken in August 2018 at a rate of 2.21% and will be repaid when it matures in August 2028.

The 2018/19 borrowing requirement for the remainder of the capital programme was deferred until such time that interest rates are judged to be favourable to the Council. This action reduces the Council's exposure to counterparty risk whilst enabling savings to be made in long-term borrowing costs. The Treasury Management Panel's view is that it will continue to monitor interest rates and borrow only when market conditions are favourable.

Temporary borrowing has been required to deal with the normal peaks and troughs of the cashflow, including creditor payments, grant receipts, etc. It has also been required to cover troughs in cashflow due to the delay in taking new long-term borrowing.

2.2 Loans Repaid

In addition to the temporary borrowing referred to in 2.1 above, a total of £3.9m of long-term borrowing was repaid, of which £0.9m was repaid in two equal instalments in April and October 2018 and a further £3m market loan was repaid to KA Finanz AG in December 2018.

2.3 Loans Refinanced

From time to time, opportunities arise to repay existing loans and replace them with lower cost alternative loans. Where this arises, savings in annual interest costs can be achieved which keep the Council's overall borrowing costs as low as possible.

As referred to above in 2.2, a £3m market loan was repaid early in December 2018 and was financed by additional temporary borrowing. This will enable the Treasury Management Panel to manage the borrowing more efficiently and effectively within its existing loan portfolio.

2.4 Summary

The Council's overall pooled borrowing rate on its long-term debt decreased from 4.88% in 2017/18 to 4.60% in 2018/19. This change occurred as a result of the movement in loans referred to in 2.1 and 2.2 above.

When the Housing Revenue Account Subsidy buy-out took place in March 2012, the Council adopted a two pool approach to managing its long-term loans with separate loan pools for the General Fund (GF) and the Housing Revenue Account (HRA). At that time the interest rate on both pools was approximately 4.9%. Since that date the maturity of loans from both pools has resulted in a change in interest rates such that the overall pooled borrowing rate is made up the GF average pooled rate (4.51%) and the HRA average pooled rate (5.67%).

With the abolition of the debt cap on the HRA in October 2018, further borrowing for social housing developments may be considered in the future.

Temporary borrowing has been required at certain times during the year in order to manage the peaks and troughs in cashflows. The Council's borrowing activities for the 2018/19 financial year are summarised below:

	<u>Loan financing</u> <u>at 1 Apr 2018</u>	<u>Additions</u>	<u>(Reductions)</u>	<u>Loan financing</u> <u>at 31 Mar 2019</u>
	£M	£M	£M	£M
PWLB	54.2	8.0	(0.9)	61.3
Market Loans	38.0	-	(3.0)	35.0
Temporary Loans	152.0	272.1	(271.1)	153.0
TOTAL Loans	244.2	280.1	(275.0)	249.3
Temporary Investment	(9.1)	(274.2)	275.5	(7.8)
NET External Loans	235.1	5.9	0.5	241.5

The revised maturity profile for the total external long-term loans outstanding as at 31st March 2019 is shown in Annex 1 of this report.

3. INVESTMENT TRANSACTIONS 2018/19

3.1 Overview

The Bank of England Official Bank Rate - the 'Base Rate', i.e. the general level to which all short-term interest rates are related started the year at 0.5%. On the 2nd August the Bank of England increased the rate to 0.75% and the rate remained at this level for the rest of the year.

Annex 2 shows this interest rate graphically from 1st September 2008 to 31st March 2019.

3.2 Receipts and Payments during the Year

Annex 3 of this Report summarises the Council's cashflows during the year, short-term interest receivable and payable, year-end loans outstanding and investment balances.

3.3 Investment Earnings

Interest which has been earned from temporary investments is included in Annex 3, together with a comparison with the budgeted income for the financial year. Actual investment earnings, included within the short-term net receivable/payable figure, are £52k and these are referred to in Annex 4 within the note on higher cash balances.

3.4 Approved Institutions for Investments

The Treasury Management Panel will continue to manage the Council's treasury and investment affairs in a cautious and prudent manner taking account of changes in the economic climate. The Council's Treasury Management Policy restricts investments to a list of approved institutions. Each institution has its own maximum investment limit and timeframe and the security of funds is the overriding factor.

The list comprises UK-registered banks along with their subsidiaries, the Nationwide and Coventry Building Societies, upper tier local authorities and certain other public sector bodies plus short-term gilts and UK treasury bills. The list continues to be reviewed regularly in the light of changes in credit ratings and market intelligence.

4. REVENUE OUTTURN 2018/19

The Treasury Management revenue account for 2018/19 had net expenditure of £9,068k, an improvement of £1,065k over the budget of £10,133k.

A comparison of the Treasury Management revenue account with the budget for 2018/19 is set out in Annex 4.

The debt servicing costs for 2018/19 decreased due to the use of cheaper temporary loans, the deferral of any new long-term borrowing and the recharge of interest on Business Loans.

Low levels of interest available on temporary cash balances coupled with fewer opportunities to restructure the long-term loan portfolio mean that further savings cannot be guaranteed in future years.

5. PRUDENTIAL INDICATORS

The Prudential Indicators and Limits for 2018/19 are set out within Annex 5 to this Report.

6. RECOMMENDATION

The Executive is asked to note the report on treasury management activities for the financial year ending 31 March 2019.

Steve Thompson

Director of Resources
