11 February 2020

Planning Application Reports – Update Note

Listed below are changes to the planning reports made as a result of additional information received since the publication of the agenda for this meeting.

Case:	Address:	Update:
19/0781	LAND AT NEW HALL AVENUE, BLACKPOOL	<p>A consultee response has been received from Marton Moss Neighbourhood Forum:</p> <p>“This application was circulated to the members of Marton Moss Neighbourhood Forum by e mail and letter and as Chairman of the Forum I received no objections to this proposal.”</p> <p>A consultee response has been received from Greater Manchester Ecology Unit, who conclude that the application can be forwarded to determination in respect of biodiversity. However, they suggest that the applicant be alerted to the protected status of otter and great crested newt and if they are found or suspected at any stage – not just in association with the current proposal – then appropriate advice and action should be taken to avoid inadvertent infringement of the wildlife legislation. Therefore, officers recommend that an informative note is added to the decision notice if permission is granted:</p> <p>“The applicant is advised of the protected status of otter and great crested newt. If they are found or suspected at any stage – not just in association with the current proposal – then appropriate advice and action should be taken to avoid inadvertent infringement of the wildlife legislation.”</p>
