

**THE HOTEL BLACKPOOL  
22-24 LORD STREET  
BLACKPOOL FY1 2BD**

**Dated 16th May 2020**

**To whom it may concern.**

**It is such a pleasure to see that the Mardi Gras has been taken over after being empty for 18 months plus and the previous lease holder who run the hotel down. To see to gents put such love, time and money into transforming this into one of the best in the street, not only on the outside but inside too as I invited myself to have a peek, WOW looks so welcoming and classy, tastefully and sympathetically updated to what guests expect and they are obviously aiming for the nicer middle class of client like we do.**

**We think the idea of having guests upto 30 by invite to the bar is a great idea, and to close the terrace off at 10pm. They informed me that they have separated sound so that the bar side is quite and also being of the same sort of age as us music not load as again they are not teenagers and they respect neighbouring**

**hoteliers and guests and to top it they said that Blackpool has many pubs and clubs for the load dancing disco music. Also at least they are being honest as some other hotels just let any Tom Dick & Harry or friends in as paying bars of which they shouldn't. We ourselves have had a temporary events notice for private party and all went very well.**

**We have been hassled a few times to fill in a form of opposing, we DO NOT see what the problem is. Let these guys have a chance, Blackpool needs new hoteliers with fresh blood and fresh clean hotels to bring a lot of the neighbourhood into the 21st century.**

**With all that's gone on in the world give these guys a break, too much jealousy and gossiping lies going around, these guys have put there hard earned cash and sweat into trying to improve a tired old building into a A1 hotel. They get my vote.**
