Subject: Dickson Road Takeaway's

Dear Tariq

You contacted the Council to request a meeting on the week commencing 23/3/15 with regards to your concerns around a review that has been submitted for some of the takeaway's on Dickson Road you suggested you had been approached by the Licence Holders of Los Gringos, Pizza Luigi and Amir's formerly Al Goucha to speak on their behalf as the Licence holders are unable to attend.

This was informally agreed by Mark Marshall that yourself and representatives of the other Takeaways could attend Bickerstaffe House on Monday the 30th of March 2015.

Following on from Mondays discussion the 30th March 2015 attended by Mark Marshall, Ben Reynolds (Police), Danny Stephenson, Tariq Albattikhi, Hamid Mechnan, Sarj Alesh and Amir Abdun with yourself acting as spokesperson on behalf of the other Takeaway representatives around the general management structure and current working practices at the late night Takeaways on Dickson Road, you offered some resolutions which you were prepared to formalise, (impose conditions on the Licence).

- 1, Staff on duty when visits occur demonstrate lack of knowledge or understanding of CCTV recording system as suggested by Sarjalosh and agreed by other representatives all staff to be trained and competent in the full operation of CCTV recording and images to be produced within 1 hour of request
- 2, Tariq suggested extra Door staff on duty throughout the shift during busy periods (suggestion 2 staff per store 3-7 am or close of play on busy times at weekends and special events) Sarjalosh expressed concern around this due to cost implications however all representatives agreed this was needed going forward.
- 3, Danny Stephenson suggested daily Schedule to be implemented for regular litter patrols of exterior areas as per annex 2 of current licensing conditions (suggestion minimum 4 patrols on busy days, 2-3 patrols on quiet days) this was agreed by all present.
- 4, Danny Stephenson suggested all stores to fulfil legal obligation of having a registered Waste Carrier in place this was agreed by all present.
- 5, Danny Stephenson suggested to prevent confusion all stores to display current and valid Waste Transfer Notices (or at least be able to produce one) this was agreed by all present.
- 6, In the interest of managing customers safely it was discussed around the room Amir's formerly Al Goucha to start the practice of having only one entrance(Amir agreed and will decide which entrance is best for the store) this was also agreed by Sarj Alesh.
- 7, Tariq suggested all stores to instigate compliance training (to be discussed and arranged for the near future and courses will be possibly be offered by Council).
- 8, Danny Stephenson suggested better and consistent Waste Management practices implemented with immediate effect (for example correct receptacles used, no clutter in stores and not deposited on footways) this was agreed by all present.

Please note the areas discussed and agreed for implementation and reiterated by Mark Marshall and Ben Reynolds that this will not prevent the review from taking place or any final decision that is made and that these are practices that should already be in place.

Nb as discussed will you please ensure the other stores are able to view this email.

Tariq it would be a good idea for you to submit a written proposal of the changes you think would be necessary, this way we can lodge these with the Committee as 'Voluntary Proposals' this way they can consider the appropriateness' and impose them as conditions if they adequately promote and safeguard the Licencing objectives.

Regards

Danny Stephenson
