“Communities: Creating stronger communities and increasing resilience”

**6.0 Background Information**

6.1 The attached schedule proposes a change to the fees and charges for Rideability. Rideability has now been in the management of the Council since 2015 and has fully integrated into the transport service.

6.2 Rideability operates 6 days a week, Monday to Saturday providing transport to anyone who is unable to use a conventional bus. This may be because of a disability or health problem, or if the service user is elderly or frail.

6.3 Rideability receives income from two sources; the service user and the concessionary travel scheme administered by Lancashire County Council, but ultimately recharged back to Blackpool Council and paid from the Concessionary Travel budget. These make up the full fare taken by the service.

6.4 The service does currently operate at a deficit, which is becoming more and more difficult to sustain in these financially challenging times. The proposal is to increase the fee from £2.25 per trip to £2.30 from 1 April 2021. This increase is inflationary and necessary to sustain service at the current level.

6.5 The proposed fees and charges are set out in Appendix A.
