

To whom this may concern,

I am returning the letter for the court. I am just waiting on a reply from my representative. In addition, I have read through all the emails and wish to make an amendment and add to my application.

1. I plan to keep the business as a supermarket. I sell a lot of food and essentials and I plan to keep it this way. I would like to sell wines that complement the food I sell or a beer or two for customers that has worked all day.
2. I understand the area I am situated is known for cumulative impact and alcohol related crimes. In my opinion central drive has improved dramatically in the past few years. My business has been open since April 2021 and I have not witnessed any trouble from the time I have been open.
3. I am aware of the four licencing objectives
  - Public Safety
  - The Prevention of Public Nuisance
  - The Prevention of Crime and Disorder
  - The Protection of Children from Harm
4. I want to work with the local authority council and police. I would like to set official company policies that will implement the above objectives.

The following are what I would like to comply with:

- Minimise the impact of my business on the area.
  - Educate the customers to drink responsibly.
  - My front window as a public information campaign 5 public education posters to be put in the window. (I have attached the examples to this email, see Fig 5).
  - Challenge 25 Rule, must have official Photo ID.
  - Limit facings and brands to moderate to low %.
  - Stock popular and recognised beer brands only.
  - Have small 75cl bottle of wine, top fridge shelf (attached photo of fridges, see Fig 2).
  - Minimise the total share of the shop lines to 3%.
  - Signs to advertise wines to compliment certain meals.
  - Set a policy, two individual cans maximum per customer.
  - Set a policy, no multi-packs will be sold.
5. Nova International is trading very well. We have regular and new customers every day, mainly European, with very positive feedback. Many times, asking if we sell alcohol and it is the customer's request, I wanted to apply for a Premises Licence. I like to think this would make the customer's shopping experience easier rather than going into two different shops.

- The refrigerator is situated on the left as you walk into the shop. (As shown in the plan we sent in). I want to keep soft drinks and cold meats in this display and a few lines of alcohol on the top shelving. Also, behind the till area we have plenty of space to stock alcoholic beverages.

I have attached photos of the before and after pictures of Nova International Supermarket (see Fig 3). The refrigerator space and behind the till space (see Fig 4). Our shop plans created by Hussain Designs. Photos of the front window in which the 5 awareness posters will be displayed (see Fig 1).

NB

I have requested the copy of the plans from [hello@hussaindesigns.co.uk](mailto:hello@hussaindesigns.co.uk)

If possible, if they do not send in time, can I request that you present a copy for the hearing.

Kind Regards,

Gheorghe Cristian Camarasan
