Appendix 4(b): Town Centre Vacancies Business List.

The information for this report is sourced from the Retail and Vacancy Survey which is conducted quarterly and dates back to August 2011 by the Growth and Prosperity Team.

The Retail and Vacancy Survey demarcates 3 overlapping zones in the town centre. The outermost zone is classified as Periphery Town Centre, the middle zone is classified as Core Retail Area and the central zone is classified as Principal Retail Core.

The August 2022 Retail and Vacancy Survey identified 618 units across the 3 zones. 129 of these are vacant. A map of each zone is below.

The vacancy rate in each zone is calculated as a percentage of total units in that zone. (Polarity: low % = good)

Please note, the way this data has been collected historically includes changes to the zone boundaries, as a result, there is an overlap between the Principal Retail Core and the Core Retail Area. This means the 27 vacant units in the Principal Retail Core make up 27 of the 89 total vacant units recorded in the Core Retail Area. (double counted).

	Town Centre Bo	undary			Principal Retail C	Core				Core Retail A	rea			Periphery Town C	entre		
	Total Units	Total Vacant Units	Vacancy Rate		Total Units	Total Vacant Units		Vacancy Rate		Total Units	Total Vacant Units	Vacancy Rate		Total Units	Total Vacant Units		Vacancy Rate

Vacancy Rate Change Since Feb			1														
2019	-1%			+4	.5 %				-0.	9%			-0	.2%			

What proportions of the total town centre footfall move across the 3 zones?

Using Visitor Insights, which is a system that used mobile phone data to calculate number of visits into different zones; almost all people visiting the town centre visit the Core Retail Area. However, since 2019, both the proportion and the total count of visits to the Principal Retail Core has decreased. This same pattern is seen for visits to Houndshill. (HH)

Aug 19 Visits			August 22		
Zone	Visits	%	Zone	Visits	%
PTC	2856460	100%	PTC	2560981	100%
CRA	2856460	100%	CRA	2524053	99%
PRC	1599083	59%	PRC	1067098	42%
НН	698127	26%	НН	479075	19%

Out of the occupied units, what is the quality of the offer?

319 units (52% of total units) have been in business constantly since February 2019.

The list below is a full breakdown of the business names and classifications.

This list highlights that the restaurant and leisure offer in the town before and after the lockdowns account for 16% of the consistent business units and this increases to 28% when including pubs and clubs.

How much footfall passed by the vacant units?

Using Visitor Insights, it is possible to identify number of visits in close proximity to vacant units. In 2019 more than a third of visits in the principal were passed a vacant space on a busy thoroughfare, such as Victoria Street, Bank Hey Street and Church Street.

In 2022, a smaller percentage of visits are passing by vacant units. As a number of units have been vacant for some time, it is likely that empty units are altering footfall patterns through the town centre.

Location	Aug 19	Percentage of total visits in zone	Aug 22	Percentage of total visits in zone
PTC	116381	4%	68711	3%
CRA	222454	8%	99514	4%
PRC	585486	37%	168551	7%

Out of currently vacant units, how many were of a temporary nature?

The majority of the recently vacant units are in the Principal Retail Core.

11% have become recently vacant (in the last 12 months) after sustained periods of trading.
