Blackpool Serious Violence Action Plan

Key Strategic Principles

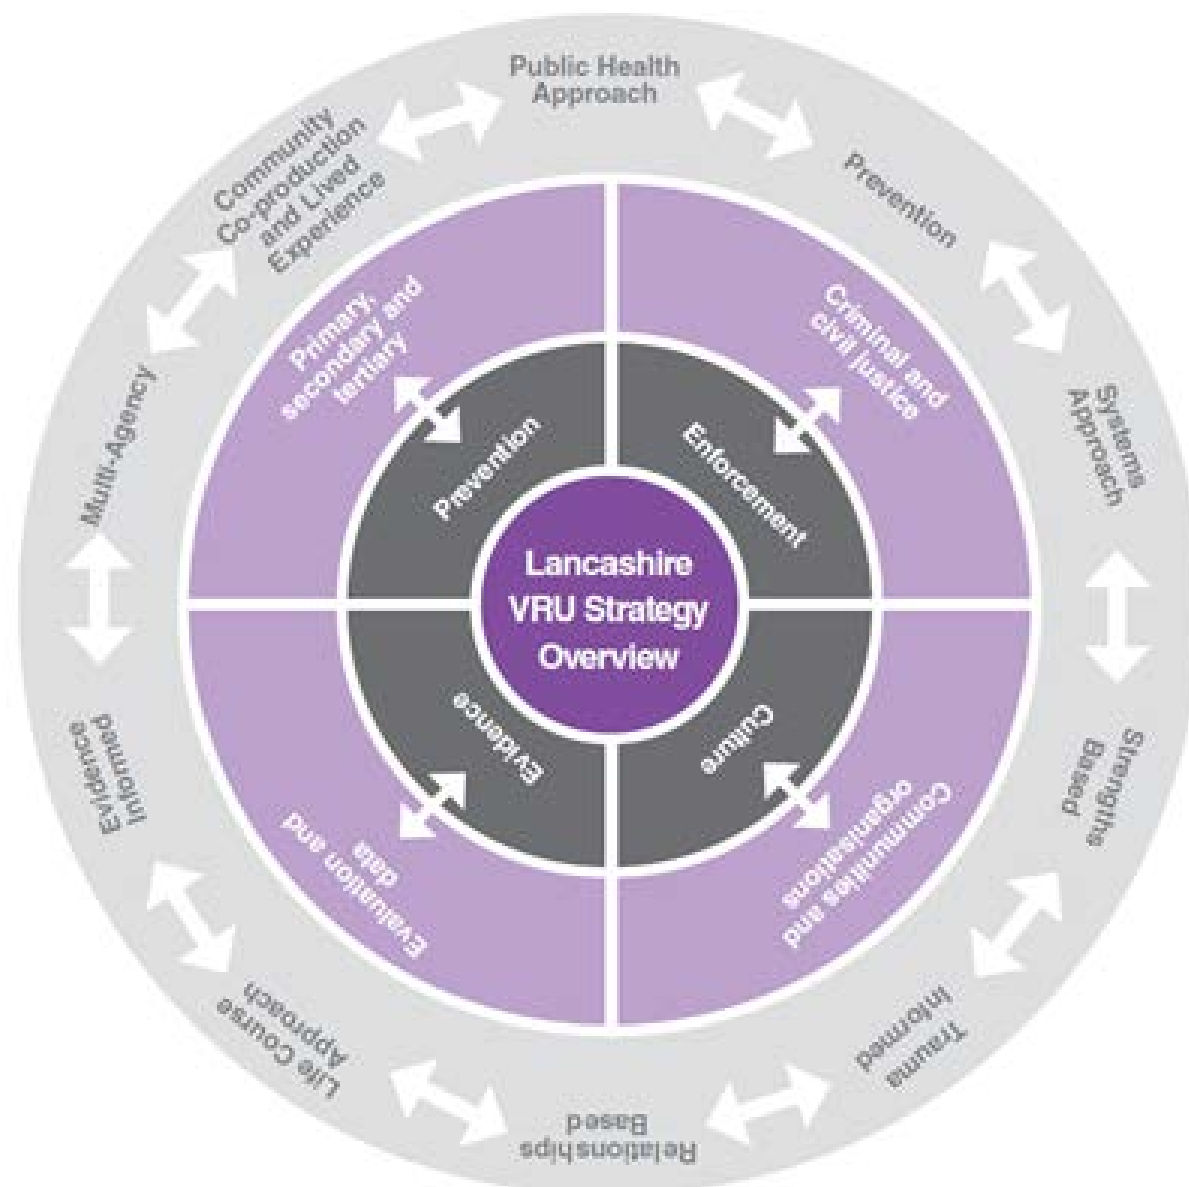

The Blackpool Serious Violence Action Plan 2024-2025 and associated delivery programmes are underpinned by a number of key principles. The Blackpool Community Safety Partnership will strive to ensure these 'golden threads' are the foundations that we, our partners and the system will strive to underpin our strategic and operational activity.

Whilst these principles will drive the direction of the Blackpool Serious Violence Duty, they are not exhaustive and can be supplemented in the context of Blackpool's driven need.

The Lancashire Violence Reduction Network (VRN) and this action plan will deliver by prioritising action, leadership and system mobilisation in four priority areas (what we will do):

1. Prevention of serious violence
2. Enforcement
3. Cultural transformation and workforce development
4. Evidence: data and evaluation

Our vision is for every person living or working in Blackpool to feel and be safe from violence and violent crime. We will achieve this through the four aforementioned priority areas as per the diagram.
