MINUTES OF HEALTH AND WELLBEING BOARD MEETING - WEDNESDAY, 31 MARCH 2021

3 MINUTES OF THE LAST MEETING HELD ON 29 JANUARY 2020

The Health and Wellbeing Board considered the minutes of the meeting held on 29 January 2020.

Resolved:

That the minutes of the Health and Wellbeing Board meeting held on 29 January 2020 be approved and signed by the Chairman as a correct record.

BETTER CARE FUND UPDATE

The Board received an update on the Better Care Fund financial monitoring from Mark Golden, Senior Accountant, Blackpool Council. Mr Golden outlined that although financial monitoring had taken place through the Council and the Clinical Commissioning Group's respective financial reporting structures, the delayed publication of statutory guidance meant that the year-end arrangements for the Better Care Fund for 2020/2021 could only now be started. Mr Golden provided assurances to Board Members that the fund had continued to be managed well through financial year 2020/2021 with a small underspend which had been considered prudent given the Covid recovery situation. It was therefore proposed to bring a report to the first Health and Wellbeing Board of the new financial year. Depending on the timescales, information would also be circulated to the Chairman and Board members in advance of that meeting to give additional reassurance as to the implementation of the approved plans and pooled agreements for funding.

Resolved:

To note the report and verbal update.

5 DRUG HARM REDUCTION STRATEGY 2020-22

The Health and Wellbeing Board considered the Drug Harm Reduction Strategy 2020-22 and its associated implementation plan.

Judith Mills, Consultant in Public Health, presented the strategy and implementation plan to the Board. She started by providing context around the scale of the issue with the harms caused by drug misuse being far-reaching and affecting too many people at all levels of society. The overall objective of the strategy had been defined as to make sure people received a more integrated response to prevention and treatment particularly in cases where drugs impacted negatively on a family's ability to help their children grow up safely. Drug misuse and dependency continued to present a particular challenge within the most deprived communities which included Blackpool and the links to Adverse Childhood Experiences were emphasised.

Ms Mills explained that the COVID pandemic had caused a delay in seeking formal sign off of the strategy by the Board but that the key actions were already being addressed.

Dr Rajpura emphasised to Board members the impact that drug misuse had on life expectancy as those with such chaotic lifestyles could also neglect other elements of their

physical and mental health.

In response to questions Ms Mills stated that the role of the voluntary sector remained key in delivering a number of the actions particularly in the access to housing and meaningful employment. Ms Mills also explained that there would further updates to the Board. She further explained that some key actions had benefitted from steps taken during the lockdown for Covid particularly in addressing homelessness and engagement such as the "Everybody in" initiative which assisted in the building of links with hard to reach groups.

Resolved:

1. To approve the revised Blackpool Drug Harm Reduction Strategy, as attached at Appendix 5a to the agenda, for the period until 31 December 2022.
2. To approve the associated Drug Harm Reduction Action Plan, as attached at Appendix 5b to the agenda, for the period until 31 December 2022.

6 FORWARD PLAN

The Board considered future items for consideration.

It agreed that the following items should be discussed as a matter of priority:

An update on restoration of services post-COVID pandemic.

An update on the work of the Children and Young People Strategic Partnership.

An update on the Local Healthwatch.
